

Hungarian athletes at the modern Olympic Games

In this collection I show all the Hungarian athletes and contestants – apart from their results – who represented Hungary in some of the events at the modern Olympic Games.

In Chapter 1 I describe the certain stages of qualifying for the Olympics, because in the period from the beginning (1876) the higher and higher number of participants caused bigger and bigger problems and that is why the ones who wanted to compete had to get the right for taking part in the Olympics in the qualification competitions.

In Chapter 2 I make the contestants known by their kinds of sport. I compiled the order of the sports on the basis of getting the first Olympic gold medal in the certain kind of sport. (I write it after the kind of sport in brackets.) Within the kinds of sport I tried to list the documents in chronological order if it was allowed by the aesthete. To introduce them I exclusively present such philatelic documents where the contestant's name /portrait (series of Olympic medals in 1972) or their starting number (as Balázs Kiss's) as well as the certain Olympic medal or the number of the medals got on the object referring to the Hungarian participating. I do not always show the participants on Olympic publication (e.g.: Puskas), because it occurs that their figure can be seen e.g. on a World Championship. Our contestants have earned 183 gold-, 158 silver- and 181 bronze medals so far, and now 193 contestants of 17 kinds of sport are named from the all. In the case of team sports the members of the teams were listed if there was space.

On the sheets the contestant's name, event and their achieved result can be found round the document (at the bottom, on top, on the left or right).

Content:

1. Reaching the Olympics.
2. Olympic performance in the certain kinds of sport.
3. Winter Olympic performance

Used literature:

MOB Hungarians at the Olympic Games, Sport annals of Arena Publisher, MOA annals,
David Wallechinsky: The Complete Books of the Olympics, National Sport annals,
Dr. Mező Ferenc: History of Modern Olympic Games, Olympic issues of Képes Sport

1. To qualify for the Olympics.

1.1. Qualification.

Only the best are given the opportunity to qualify for the Olympics, otherwise the number of participants would be extremely high. Therefore, it is possible to qualify for the Olympic Games in world competitions in the sports concerned, provided that you achieve the right ranking.

Stamping of fencing qualification competition :

*"Eximbank Women's Dagger World Cup,
Olympic qualification competition.
Újpest 1, 14.03.2008."*

At this competition it was possible to
to qualify for the Beijing Olympics.

Stamp of the pentathlon qualification
competition:

*"Women's and Men's Pentathlon World Cup,
Olympic qualification.*

Shipyards Island,

Filaposta-Budapest, 10.08.2002."

This competition at the Athens Olympics
to qualify for the Athens Olympics.

3. Winner Olympic performance. (22.02.2018.)

The Hungarian Olympic Committee celebrated its 125th anniversary in 2020. To mark the occasion, a stamp block was issued with the number of Olympic medals won by Hungarian athletes. To these numbers must be added the number of medals won at the Tokyo Summer Olympics and the Beijing Winter Olympics. In Beijing, our athletes won 1 gold and 2 bronze medals.

In 2021, our speed skaters' equipment will be on display at the Olympic history exhibition in Millenáris Park.

Thus, the skates of Hungary's first individual Olympic champion - Liu Shaoang - were on display.

The interesting thing about the stamp used at Millenáris is that the second line was cut out because it was incorrectly included. In the case of the sporting shooters, the full text of the stamp is visible.
