

The definitive stamps of "Women in Art"

Background

The series of women in art was born in 1998, following the need to have new stamps to replace the series of named "Castles of Italy", born 18 years earlier. The first stamps set consists of 5 stamps, with value of 100 L., 450 L., 650 L., 800 L. and 1000 L., designed to cover the standard rate for the interior (800 L.), for the abroad (900 L. with two pieces of 450 L.). In January 1999, the series of women in art, adding the value in euros, and from that moment all the other stamps also had the stamps value expressed in the two currencies. We must wait until January 2002, with the introduction of the new currency, which becomes the only valid currency in Italy two months later, to see new stamps and new women. On 2nd January 2002 it were issued in total 19 different ordinary stamps, including dedicated to women in art. For 3 of these it is a simple reprint of previous values, with the only difference of the face: the 100 L. becomes 0.05 €, the 450 L. becomes 0.23 €, the 800 L. becomes 0, € 41, but all three have the same design of the issued in 1998 and 1999. However, the seven stamps of the January issue are not the only ones scheduled for the year; to provide all possible postage supplements in the new currency are also printed values from one cent, two and twenty, with unpublished drawings, all issued on March 1, 2002. 2003 does not bring new subjects, but rather reprints of those of the previous years, modified in the thousandth with the addition of the abbreviation "Spa". In 2004, tariff updates require new cuts in stamps, especially for the most common tariffs: thus the stamps of 45, 65, 70, 85 and 90 cents are issued, issued on different dates between January and July 2004.

Purpose and Scope of the Exhibit

The present collection intends to illustrate all the values of the series, presented according to the emission chronology, in its typical printing, perforation and false varieties; in addition to their use in isolation, multiple or combined with other values of the series and with twin values with different nominal currency (Lira, double currency Lire / € and in €).

We tried to select the material in order to present the widest variety of services and postal items for the interior, without forgetting where possible in documents forwarded abroad the presence of documents to non-common destinations.

Rarity Statements

These are based on international auction catalogues and by list circulating among italian collectors, and of course by acknowledgment as national jury of exhibit evaluated.

Cap. 1 - 1998 – The issue of stamps in Lire currency: 100 l., 450 l., 650 l., 800 l. and 1.000 l.

The debate on the preparation of a new ordinary that would replace the "Castelli" began at the end of 1995, but the project took shape in the meeting of the Consulta for philately on 18 November 1996. On 21 April 1997 the Giunta d'arte approved the project and appointed a restricted commission to implement it. The commission selected the works to be reproduced and the series, as it appears in its final version, appears cured, elegant and graphically successful and coherent. The stamps are printed on non-watermarked fluorescent paper, for the values of L. 100, L. 450 and L. 650; on fluorescent paper, watermarked with five-pointed stars placed in a carpet on the whole sheet, for the values of L. 800 and L. 1000; paper size: 25.4 x 30 mm; print format: 21.4 x 26 mm; indentation: 14 x 13. »The indentation was applied with a vertical comb perforator that moved from top to bottom. "The sheets are composed of one hundred copies each. On the selvage, along the entire upper and lower side of the sheet and on the left side in correspondence with the postage stamp on the first, second, ninth and tenth rows, is reproduced the same decorative frame that appears on the stamp collected in the sheet. » This frame, coming from the ornament placed on the upper edge of the sheet, is reproduced above the title of this page. The facial value and the "Italy" legend are placed at the bottom, respectively on the right and on the left of the vignette, and reproduced in black, using the "lapidary" character with which this legend is engraved on a Roman bronze table known as " inscription of Ferentino "(101-102 AD). In the lower facial values, up to L. 800 excluded, besides the declared variable colors, the "interferential" paint is used, with pigments of recent introduction, with a highly innovative technology, invisible and with iridescent effect towards gold depending on of the viewing angle.

It's conceivable that this is a preliminary study for a series of stamps prefiguring the general characteristics common to the whole series. It is known in two versions: with gold and silver interferential paint, both on watermarked paper and made by I.P.Z.S. of Rome

Cap. 2 - 1999 - The issue of stamps in Lire/Euro currency

On January 28, 1999, as part of the process of European monetary integration, the same type of values was re-issued, with the indication of the two currencies, Lira and Euro. The Ministerial Decree of 6 May 1999, published in the Official Gazette no. 139 of 16 June 1999 (four and a half months after the issuance of the postage stamps). The ministerial decree of 6 May 1999 states that "the characteristics of the decree of 2 July 1998, mentioned in the preamble, of five stamps and a postcard for the interior belonging to the ordinary series" The Woman in Art ", printed after the January 1, 1999 are integrated with the indication of the countervalue in euros: L. 100 / € 0.05; L. 450 / € 0.23; L. 650 / € 0.34; L. 800 / € 0.41; L. 1,000 / € 0.52. » The decree takes care not only of the stamps, but also of what happens at the edges of the sheets: "On the left side of the selvedge of each sheet that collects the stamps is the value of the sheet with the indication of the euro equivalent, namely: for the value of Lire 10,000 - euro 5.15; for the value of L. 45,000 - € 23.24; for the value of L. 65,000 - € 33.57; for the value of Lire 80,000 - € 41.32 and for the value of Lire 100,000 - € 51.65. » On the left edge of the sheet that contains the hundred stamps (which the ministerial decree calls "cimosà") instead of the value in Lire (above) appears the indication of the value in double currency. It is interesting to note that due to the rounding rules in the Lira / Euro conversion, after 1 January 2002 (in fact after 2 January, considering that day 1 was a holiday), it was sometimes cheaper to buy a hundred separate stamps rather than that a whole sheet of a hundred: in particular it was cheaper to buy individually one hundred stamps from L. 100 / € 0.05, L. 450 / € 0.23 and L. 800 / € 0.41 (which came to cost respectively € 5, € 23 and € 41 against € 5.15, € 23.24 and € 41.32 indicated on the edge of the sheet). Instead, having to buy the stamps from L. 650 / € 0.34 and from L. 1.000 / € 0.52 it was cheaper to buy the sheets at € 33.57 and € 51.65 compared to one hundred separate stamps (which came to cost € 34 and € 52)..

Cap. 3 - 2002 - The issue of stamps in Euro currency: 2 c., 5 c., 10 c., 23 c., 41 c., 50 c. and 77 c.

On 2 January 2002, the series "La donna nell'arte" completes the passage of Italy to the new single European currency with the issuance of seven values and a postcard for the interior. Not all the cuts are updated (in fact, the one from L.650 / euro 0.34 and from L. 1.000 / euro 0.52) are missing because they are no longer considered to meet the needs of the rates in force, and new ones are added. The new issue of 2 January is decreed by the ministerial decree of 4 February 2002, published in the Official Gazette no. 91 of 18 April 2002, entitled "Determination of the value and technical characteristics of seven stamps and a postcard for the interior belonging to the ordinary series" La donna nell'arte", in the respective values of Euro 0.02 - Euro 0,05 - € 0.10 - € 0.23 - € 0.41 - € 0.50 - € 0.77 for postage stamps and € 0.41 for a post card. »

Cap. 5 - The issue of stamps in Euro currency with legend "S.p.a.": 1 c., 2 c., 3 c., 5 c., 41 c. and 50 c.

Meanwhile, starting from 1 January 2003, with the transformation of Poligrafico into a joint-stock company, all Italian stamps bear the indication "I.P.Z.S. S.p.A." at the foot of the sticker (the so-called "in company"). Of course, even the new runs of the stamps of the ordinary series "The woman in art" undergo this update, which is not announced by any press release and even less provided for in some decree: on the other hand, these are updates that do not affect the technical characteristics of the stamp or the sticker. So it happens that the same collectors are aware of it and report it to the specialized press. Between 2003 and 2004 all the values in euros are affected by this change (including the post card with the exception of € 0.23 and € 0.77. The values issued subsequently will have all the acronym s.p.a.

Cap. 6 - 2004 - The issue of stamps in Euro currency with legend "S.p.a.": 10 c., 20 c., 45 c., 65 c., 70 c., 85 c. and 90 c.

Following the new rate card, which came into force on 1 January 2004 (in fact on 2 January), the need to have new stamps corresponding to the new tariffs is immediately felt. So we proceed to issue new stamps of the series "The woman in art" with new subjects chosen among those identified in 1997 by the restricted commission appointed by the Art Council. The first to be issued on 27th January 2004 is the most immediate necessity value: it is the one for a letter for the inside of the first port of € 0.45. It is authorized by the ministerial decree of 6 April 2004 published by the Gazzetta Ufficiale n.124 of 28 May 2004. To cover the tariff for the second port for the interior on 17 February the denomination of € 0.85 is issued, authorized by a separate decree bearing the same date as the previous one, 6 April 2004, and published by the Official Journal no. 124 of 28 May 2004. On 20 March 2004, the value of € 0.65 was issued (the first port for an ordinary letter for the countries in America, Africa and Asia, excluding those belonging to the Mediterranean). The stamp is authorized by Ministerial Decree of 29 July 2004 published a little late in the Official Gazette no. 283 of 2 December 2004. On 26 June 2004 the value of € 0.90 is issued to cover the third port of a letter for the interior. It is authorized by Ministerial Decree of 29 July 2004, published in the Official Gazette no. 279 of 27 November 2004. On completion of the new tariffs, the stamp of € 0.70 (ordinary letter of first port for Oceania), authorized by the ministerial decree of 7 December 2004, published in the Official Gazette no. 46 of 25 January 2005.
